

A list of subjects

Subject	ECTS
Animal anatomy I	6
Animal biology	5
Animal physiology I	6
Environmental education	3
Foreign language A I (English)	2
Latin I	4
Preparation for practice I	2
Animal anatomy II	6
Animal physiology II	6
Biochemistry	3
Biophysics	3
Histology	2
Biomechanics	2
Foreign language A II (English)	2
Latin II	4
Preparation for practice II	2
Breeding and nutrition of animals I	6
Pathological morphology	4
Pathological physiology I	4
Microbiology and parasitology	4
Clinical propedeutics I	6
Displaying techniques	2
Foreign language A III (English)	2
Professional practice I	2
Breeding and nutrition of animals II	6
Pathological physiology II	5
Clinical propedeutics II	6
Etology	5
Zoohygiene	4
Foreign language A IV (English)	2
Professional practice II	2
Internal diseases of animals I	6
Disorders of animal health and behavior	4
Animal care I	5
Animal prevention and immunology	3

Basics of pharmacology	4
Legislation and food hygiene	2
Foreign language A V (English)	2
Professional practice III	2
Graduate work seminar I	2
Internal diseases of animals II	5
Animal care II	5
Animal orthopedics and neurology	3
Surgery	3
Animal Welfare	1
Obstetrics and animal reproduction	3
Foreign language A VI (English)	2
Professional practice IV	2
Graduate work seminar II	2

Compulsory-optionals	
Media education and fake news	
Technique of administration	
Project management	
Basics of legislation and law	
Protection of public health	
Ethics in veterinary medicine	
Foreign language B I (deutsch)	
Foreign language B II (deutsch)
